DESPERATE TRAMPS.

They Take Possession of a Freight Train.

A FIGHT WITH THE OFFICIALS.

Nine of the Desperadoes Captured and Lodged in Jail—A Crowd of Drunken Tramps Attempt to Run a Train on the Pennsylvania Railroad.

COLUMBUS, Ind., June 8.—Twenty-three tramps raided the southbound freight due here at 1 o'clock a. m., at the Belt crossing of the Louisville division of the Pennsylvania line at Indianapolis, and, overpowering the train men, ran the train to suit themselves. The officers of the city were wired as to the situation, and when the train arrived, at half-past 3 o'clock, a posse was at the depot to arrest the toughs and re-seize the train.

Upon the arrival of the train here the tramps congregated in a box car and when the officers attempted to raid the car they were met with a volley of shots, which were hotly returned. After a half hour's skirmishing the officers succeeded in arresting nine of the tramps, and they are in jail here awaiting a hearing next Tuesday. They gave their names as James Harrington, Harry Rodgers, George Sutton, James Bundy, Frank Bishop, George Wallace, Edward Dahn, Harvey Cordell and Thomas Slaven, and they claim to hail from the states of Ohio, Illinois and Mississippi. Very little could be learned from them, except that they were on their way to Seymour to attend a big celebration, and also that they intended to work the southern Indiana racing circuit.

Train Captured By a Drunken Mob.

COLUMBUS, Ind., June 8.—The north bound train on the Pennsylvania line was attacked by a drunken mob, just after it pulled out of Seymour, at 9 o'clock Saturday night. Knives were drawn and used freely. Charles Cut-singer was badly used up, as were also two strangers. The train was in charge of Harry Smith, conductor, who placed four men under arrest here and lodged them in jail.

A BAD BEGINNING.

One Man Killed and Two Injured by an Explosion on a Lake Steamer.

TOLEDO, O., June 8.—The large new steel passenger steamer City of Toledo, just finished at Craig's ship yard, met with a serious accident Saturday afternoon. The machinery was being turned with the steamer in the slip preparatory to making her first trip, when the steam-chest of the intermediate cylinder exploded, instantly killing Joseph McCracken and seriously, if not fatally, injuring two other men. McCracken was a painter, and lived in Toledo.

The accident disabled the boat so that she will not be out for about three weeks longer than expected. The steamer was inspected by local steamboat inspectors from Cleveland yesterday, and everything pronounced sound. The directors and a number of invited guests were on board, but escaped uninjured.

Dynamite Among the Coal.

HUNTINGTON, Ind., June 8.—Saturday night engine 104, on the Chicago and Erie, had a narrow escape from utter destruction. The attention of F. H. Lee, engineer, was called to a remark of the fireman, Pat McMahon, "Here's something for you." While he was about to put a shovel full of coal into the fire. The engineer took it, and, on examination, found a tin box chuck full of miner's blasting cartridges. The box was in the coal, and if it had been thrown into the fire would have blown the engine to atoms.

Killed His Assailant.

MOUNT VERNON, Ind., June 8.—Last night James Mitchell went to the house of Marion Townsend, six miles west of here, and fired two loads of buckshot from a shotgun at him, nine of which took effect in his legs, arms and breast. Townsend, after being shot, stepped back into his house and got a Winchester rifle and fired two shots at Mitchell, the last of which took effect in his breast, killing him instantly. Townsend is painfully but not fatally injured.

The Midland Tie-Up Broken.

CRAWFORDSVILLE, Ind., June 8.—The Midland strike has been declared off. Acting under the instructions of the court, Deputy Sheriffs Cox and Davis went to Waveland Saturday to try, if possible, to raise the strike either by persuasions or force. Persuasion sufficed, for the strikers did not care to incur contempt of court and they helped to get the trains in shape to run. The road has been tied up for a month.

Muck Mill Burned.

FINDLAY, O., June 8.—The muck mill of the Briggs rolling mill was destroyed by fire Saturday, resulting from an explosion of gas under the boilers. The buildings burned covered an acre of ground. The loss amounts to about \$20,000, fully covered by insurance. Nearly 200 men are thrown out of employment temporarily. The main buildings of the plant were saved.

Distinguished Dead.

LAPORTE, Ind., June 8.—In the little cemetery at Leesburg, Kosciusko county, with a plain headstone to mark the location of the graves, rest the remains of John Wanamaker and wife, father and mother of the postmaster general. The same burying ground also contains the remains of James S. Blaine, who is supposed to have been an uncle of James G. Blaine; a wooden slab only marks the mound of earth.

Earthquake in Italy.

ROME, June 8.—An earthquake in northern Italy damaged houses in Mantua and Verona, and caused the death of an invalid lady through fright.

CANADA'S PREMIER IS DEAD.

Sir John Macdonald Passes Peacefully Away to the Great Beyond.

OTTAWA, Ont., June 8.—Sir John Macdonald is no more. The distinguished statesman who has guided the political destinies of Canada for nearly half a century passed peacefully away at 10:15 Saturday night, surrounded by the entire household. Lady Macdonald, who bore up so bravely during the fatal illness, is now prostrated with grief. All the church bells are tolling, and thousands of citizens are expressing deep regret at the Premier's demise.

For hours members of the household had been watching the bedside waiting to see life depart.

Although the physicians declared Friday night that Sir John could not survive until morning, they had not made allowance for his marvelous vitality. He had lost consciousness thirty hours ago, and had taken no nourishment since save small quantities of champagne which were administered with difficulty. The Premier, sick unto death, kept up the unequal struggle until after 10 o'clock. For days, it is assumed, he resisted the inevitable by the sheer force of his powerful will, but Friday consciousness disappeared never to return. In the ensuing period nature, now no longer restrained, asserted itself, and life's fire, already burning low, flickered and smothered, and the soul finally left its earthly tabernacle.

Death came peacefully to the aged premier at 10:15. He was unconscious to the last. The pulse fluttered, the breath came shorter and then all was still. When the announcement of Sir John's death was made the bells of the city were tolled to convey the intelligence to the thousands who were anxiously awaiting this signal that their beloved premier was no more.

The Premier's Public Career.

Sir John Macdonald was born in Glasgow, Jan. 11, 1815. He was the eldest son of Hugh Macdonald (a member of a respectable family in Sutherlandshire, and for many years a manufacturer in Glasgow), who, with his family, emigrated to Canada in 1820. He received his early education at the Royal grammar school at Kingston, and, having chosen the bar for his profession, was admitted at Osgoode hall in 1836. In 1839 he defended "Gen." Von Schultz, who had become entangled in treasonable actions, looking toward revolution, and who was supposed to have done a good deal in fostering the rebellion. He made a brilliant defense, which was unavailing, for Von Schultz paid the penalty with his life. From this time forward Mr. Macdonald was generally retained in important cases.

In 1844 he was offered the nomination for Kingston in the Conservative interest. His triumphant election was the result of an exciting contest, in the course of which he gave unmistakable promise of very unusual ability as a debater.

In December, 1844, the Canadian parliament assembled for the dispatch of business, and Mr. Macdonald, who supported the party then in power, began his long executive career on the 12th of that month, being appointed a member of the standing orders committee.

In 1847 a request came from the then premier, Mr. Draper, that he should accept the portfolio of receiver general. After a short continuance in this office he was transferred to the crown lands department, where his valuable services were suddenly brought to a close by the change of government in 1848, when the Baldwin-Lafontaine administration came in. From that time to the autumn of 1854 he sat on the opposition benches as a prominent part in the debates.

In 1854, on a change of administration, Mr. Macdonald accepted the office of attorney general under Sir Allen N. McNab, Bart., and continued to hold the post when Sir Allen resigned, and was succeeded by the Hon. T. E. Tache, until the autumn of 1856.

He was then called upon, on the retirement of the latter, to form the Macdonald-Cartier ministry, which had a long and eventful life.

One of the most important events with which Sir John's name will ever be peculiarly associated was the Washington convention of 1871, in which a number of irritating international questions that had accumulated between Great Britain and the United States received a quieting through the medium of a joint commission. The principal subjects that came before this commission were the fishery question, the Alabama claims, the navigation of the St. Lawrence, and the boundary line between the United States and the British Columbia. Of these matters at issue the first was vitally important to Canada, as the dispute had during late years assumed a very serious aspect.

Not in any sense as a representative of Canada, since Canada, being a colony, could of course have no status in such a proceeding, but as a representative of England, selected for that honor because intimately acquainted with all the subjects awaiting settlement, and bound to consider imperial interests as altogether paramount to colonial. Sir John occupied a place on that commission. A more delicate or difficult position can hardly be conceived.

The results of the convention are well known. The Alabama claims were referred to another arbitration board for settlement, the San Juan boundary dispute went to the Emperor of Germany for his adjudication while free navigation of the St. Lawrence and Michigan canals was guaranteed to American and Canadian citizens alike. With regard to the fishery question it was settled that the Canadian waters should be thrown open to American fishermen for a period of ten years, and that the United States should pay for this privilege such amount as might be awarded by a special commission to meet at a later day. The commission met at Halifax, N. S., in 1877, and awarded to Canada \$5,000,000. Which sum was duly paid over by the United States.

The protective tariff was the last issue on which Sir John appealed to the country. The Liberals favored tariff reduction and reciprocity with the United States as steps leading to free trade, while the Conservatives upheld their traditional policy of protection and retorted upon their opponents with the charge that the latter were annexationists in disguise and disloyal to the crown. The campaign was a very heated one, though brief, and on Thursday, March 5, 1891, the election was held. Sir John triumphed, as usual, though with a greatly reduced majority.

THE HARTRANFT MONUMENT

Conveiled at Norristown, Pa., With Appropriate Ceremonies.

NORRISTOWN, Pa., June 8.—The ceremonies attending the unveiling of the Hartranft monument took place here Saturday, and it is estimated that 30,000 men marched in the procession of which Gen. J. P. S. Gobin was the chief marshal. The troops were commanded by Robert P. Dechert. The Grand Army of the Republic was represented by twelve posts with Department Commander Boyer in charge, and Pennsylvania commandery military order of the Loyal Legion, under Gen. D. McM. Gregg; the association of the Third division of the Ninth army corps, Army of the Potomac, and the Fifty-first Pennsylvania Volunteers association, with all of which Gen. Hartranft was connected, was in the column. The line formed on Main street at 2:30 p. m., and marched by way of Main, Swede and Franklin streets to the cemetery.

Governor Robert E. Pattison presided and Rev. Henry C. McCook, of Philadelphia, offered prayer. Maj. Gen. George R. Snowden delivered an address on behalf of the militia, and other speeches were made by Gens. Beaver and Hastings. A major general's salute of fifteen guns were fired by Battery C, of Phoenixville, as the string confining the veil was severed by Miss Margaret North, daughter of Col. George H. North, Gen. Hartranft's old adjutant general. At the conclusion of the ceremonies Governor Pattison reviewed the column from a point of view in front of Gen. Hartranft's home.

The monument is located in the extreme southern corner of Montgomery cemetery, and stands upon the summit of a high bluff, over the grave of the general, that commands a view of the Schuylkill and the hills of Valley Forge. It is built of plain granite, six feet square at the base, and five and a half feet thick, surmounted by a shaft thirty-five feet high. The name "Hartranft" in square letters is cut upon the base, with a bronze medallion bust of the general in full uniform just above the name.

The money for the monument, amounting to \$8,000, was raised by means of subscriptions from members of the National guard.

THREE CORPSES UNCOVERED.

Shocking Find of Some Well Diggers Near Crown Point, Ind.

LAPORTE, Ind., June 8.—A ghastly discovery was made yesterday in excavating for a well near Crown Point, Lake county. When about six feet down the workmen came upon the badly decomposed remains of a man, woman and child about 6 years of age. Decomposition had removed any possibility of identification. The skulls of the three victims had been crushed in with some blunt instrument. The murder is enveloped in the greatest mystery.

It is thought, however, they were emigrants on their way west. The bodies had been dumped head foremost in a quickly constructed ditch. The only possible clew to the dark deed is the sudden and mysterious disappearance of two men who had a hut in a stretch of timber land near by, and followed the occupation of wood chopping. The bodies were close together and not a vestige of garment remained to conceal their nakedness. After foully murdering the entire family every bit of clothing had been removed. Other bodies have been found in the immediate vicinity.

CAUGHT AT A CROSSING.

An Engine Runs Into a Street Car Loaded With Passengers.

INDIANAPOLIS, June 8.—A Big Four pony engine crashed into a loaded street car on the Union tracks yesterday, creating a panic and wild scene of confusion among the passengers, but, fortunately, hurting no one. The driver saw the engine and tried to whip his mules across the track, but the car had gotten but half way across when the engine struck it.

The passengers rushed forward to the front end of the car and cleared the rear end just in time to escape the crash which broke the car in two and mashed the rear end into kindling wood. The only injuries sustained were by a few passengers who were thrown down in the rush, but no one was seriously hurt.

Murderous Indians.

TOMBSTONE, Ariz., June 8.—Word was received here yesterday of the killing of Frank Cathew by Apache Indians, near Arizpe, Sonora. Cathew was employed as a swamper on a mule train. There were two other men with teams and it is understood that they resisted the Indians' attack. It is believed the Indians will make for southern Arizona. Ranchers have been notified and are determined to exterminate this band of Apaches.

Killed By the Cars.

BARNESVILLE, O., June 8.—Milton Long, a section hand on the Baltimore and Ohio railroad, living at Bailey's Mills, was found dead near the track. He was struck by an east bound passenger train. He, with his brother and several others, were in town on Saturday night, and were drinking.

Big Fire in Milwaukee.

MILWAUKEE, June 8.—At an early hour Saturday morning the sash and door company's plant, located on Clinton street, was totally destroyed by fire. Loss estimated at \$100,000; insurance \$32,000.

FARMERS' ALLIANCE

An Active Canvass to Be Made Everywhere.

PROMINENT SPEAKERS ENGAGED.

Objects of the Alliance to Be Made Known by Speakers, Lecturers and Canvassers in Every State of the Union—An Active Campaign Laid Out and Already Begun—Other Washington News.

WASHINGTON, June 8.—Col. L. L. Polk, president of the National Farmers' Alliance, and Congressman Jere Simpson left Saturday evening for La Crosse, Wis., to attend a convention of the different industrial organizations of that state, which meets Tuesday for the purpose of uniting with the National Alliance as one working body. After the organizations of the Alliance is completed, they will make several speeches in that state, and then proceed to Illinois, Indiana, Ohio, Pennsylvania, New Jersey and New York, where mass meetings have been arranged by the Alliance leaders of those states, to discuss the principles of the order.

President Polk says: "Every state in the Union will be actively canvassed by the best talent in the Alliance in the way of speakers, lecturers and canvassers, who will fully explain the objects of the Alliance and what will be asked in the way of state and National legislation."

President Polk has arranged through his forty state Alliance presidents to have mass meetings at several points in each of the forty states during the next four months with a view of accomplishing the greatest amount of work in the shortest possible time. He will have hundreds of speakers at work at the same time throughout the entire Union, educating, as he says, the masses to the Alliance cause before the meeting of the Fifty-second congress. By the time the National convention meets in November, he thinks the Alliance will be fully posted as to what strength the order will have as a presidential and congressional factor in 1892.

President Polk has taken the field in person, and will visit every state from Maine to the Pacific coast.

Postoffice Inspection.

WASHINGTON, June 8.—Postmaster Sherwood and Superintendent of Mails Springer, have just returned from their hurried tour of inspection of the post-offices of Philadelphia, New York and Boston. Their object in taking the trip was to gather ideas for the temporary postoffice to be erected in this city. In New York they struck Decoration Day, and that being a holiday, their inspection of the workings of the office there was unsatisfactory.

The cities visited are supplied with modern improvements in mailing appliances, and of course are much in advance of the Washington postoffice. Postmaster Sherwood and Superintendent Springer agree that the New York office is just as much cramped as the Washington office, especially in the mailing division. The office is too small for the vast amount of work that the force is called on to do.

The observations of the postmaster and his superintendent will be of great value in the arrangement of Washington's temporary office, as the latter devoted much time to watching the operations of the dispatching of mails. He will make a detailed report of the visit. While in New York they went aboard the steamers of the North German Lloyd line and inspected the workings of the new sea postal service that Mr. Wanamaker has instituted on this line of vessels. On Monday Capt. Sherwood and Superintendent Springer, of the mailing division; Bell, of the city delivery; Peachy, of registry, and Johnson, of money orders, will go to Baltimore to inspect the new office there.

Consternation in the Census Office.

WASHINGTON, June 8.—There is consternation in the various branches of the census office. It grows out of the fact that the money appropriated to carry on the work is running so low that it has become necessary to reduce the force. It is hinted that between now and July 1 the force is to be reduced at least 1,000, which takes in quite a large number of the original appointees and nearly all of those who were recently given a three months' appointment.

This information was generally imparted Saturday by Chief Clerk Childs, on being asked to transfer a number of the clerks to the regular list or reappoint them for another three months' term. He replied that it was impossible to do so, and that on the expiration of the time there would not be any new ones appointed. The work is no where near completion, and it is only thought possible by working the force night and day that by Dec. 1 it would all be up in shape. This state of affairs will delay the work of the office considerably and will necessitate an extra appropriation to complete it.

BRUTE IN MEN'S CLOTHING.

A Drunken Fiend Attacks His Father, Mother and Young Wife.

INDIANAPOLIS, June 8.—Stephen Lovelless, the son of highly respectable parents, went home drunk early Sunday morning and viciously attacked his father, mother and young wife. His father, helpless from paralysis, was dragged out of bed and terribly beaten, and when the mother interfered she was knocked down and kicked in the side.

The wretch then threw himself upon her and nearly bit off her right ear. He kicked and cuffed his wife about the room and was only prevented from murdering her by the timely arrival of neighbors who took him to the station house where he is now held for attempted murder.

EVENING BULLETIN.

DAILY, EXCEPT SUNDAY.
ROSSER & MCCARTHY,
Proprietors.

MONDAY, JUNE 8, 1891.

DEMOCRATIC STATE TICKET.

For Governor,
JOHN YOUNG BROWN.
For Lieutenant Governor,
M. C. ALFORD.
For Attorney General,
W. J. HENDRICK.
For Auditor,
L. C. NORMAN.
For Treasurer,
H. S. HALE.
For Register of Land Office,
G. B. SWANGO.
For Superintendent Public Instruction,
E. PORTER THOMPSON.
For Clerk of Court of Appeals,
ABRAM ADDAMS.

It is estimated that since the war Pennsylvania has been robbed of \$20,000,000 by thieving office-holders. In perusing this item just remember the politics of that State all these years.

The next Judge of the Court of Appeals, from this district, may hail from Winchester. It is said that Judge Becker, of that city, is an avowed candidate, subject, of course, to the action of the Democratic party. The Judge was formerly a citizen of Maysville.

The last Legislature was in session over one hundred days and cost the people more than \$100,000. Most of the time was spent putting through local bills.

The new Constitution prohibits local legislation and if adopted it will save the tax-payers of the State thousands of dollars.

A MARKED copy of the Helena (Mont.) Journal (Russell Harrison's paper) has been sent to Mr. Blaine, the markings calling attention to this quasi-official order:

Heads of each of the great Departments are at liberty to initiate and suggest, but can only go forward with any project after advisement and after the President has directed them to do so. It might occur, as it did in the case of Buchanan, that members of the Cabinet had more ability and experience than the President, but no such contingency as that can arise with a man of President Harrison's caliber in the White House.

The National Democrat remarks this is the long and diplomatic way of saying: "Pa thinks you'd better not wag your tongue so much, Mr. Blaine."

The next meeting of the State Teachers' Association will be held at Henderson, June 24, 25, 26. Hon. John Young Brown will deliver the address of welcome, and Hon. Ed. Porter Thompson, our next State Superintendent of Public Instruction, will make an address on "The Press as an Educational Factor." Hon. Wm. T. Harris, U. S. Commissioner of Education, will deliver an address on "Psychology for Teachers," and this alone will be worth a visit to Henderson. The programme is an unusually full one, and the sessions will be crowded with interesting exercises. All the railroads of the State will sell tickets at one fare for the round trip, and the people of Henderson will look after the comfort of all who attend. The President, Prof. C. H. Dietrich, of Hopkinsville, has spared no pains to make perfect all arrangements, and a good meeting is in prospect. Every teacher should attend. Programmes can be obtained by addressing the Secretary, R. H. Carothers, Louisville, Ky.

Cleveland For '92.

Congressman George D. Wise, of Virginia, says: "I am for Cleveland for the next President, because I think that he can carry the country, and because he is an honest and safe man. I believe that Virginia is for him, too. He gave us a satisfactory administration once, and I think that the people are disposed to trust him again. I think that Virginia will send a Cleveland delegation to the next convention. The Farmers' Alliance will vote with the Democrats rather than as a third party."

Lively Times at Brooksville.

The Democratic mass meeting at Brooksville Saturday was a lively one; it was called to select delegates to the convention to be held at Falmouth June 10 to nominate a candidate for the State Senate from the Bracken-Pendleton-Grant district.

There are but two aspirants for the honor and they both live in Bracken—Squire W. Y. Weldon, of the Augusta Vindicator, and Mr. Silas W. Bradford, of Brooksville. The friends of each were on hand in large numbers. A special says: "The meeting broke up in a general row. The convention was unable to organize, and two sets of delegates were appointed—one set for Weldon and one set for Bradford. Ben Browning was seriously cut by a knife in the hands of some unknown person. Pistols and knives were flourished and a general free fight was narrowly averted."

Weldon carried Pendleton, the largest county in the district. Grant's delegation is uninstructed, but the majority are favorable to Bradford. Two of the delegates are for Weldon.

THE CONSTITUTION.

Comments of the Kentucky Press on the New Instrument.

Jumping on the Courier-Journal Crowd With Both Feet, So to Speak.

Paducah News: "The trust and monopoly conspirators who are to meet at Lexington shortly are not finding it as plain sailing as they anticipated, by any means. The papers which, by a large majority, are favorable to the adoption of the proposed new Constitution, are jumping on the conspiracy with both feet. The people, through the honest and patriotic press, are rapidly 'getting onto the racket,' if a slang expression may be used. They will be heard from in August and the plutocrats will be shown that, with all their money and unscrupulous wire-working, they can not inveigle the sovereign people of this Commonwealth into surrendering their rights and interests to the haughty demands of combined wealth."

Barboursville News: "There is to be a determined fight against the adoption of the new Constitution by a lot of Democrats and Republicans who are in favor of monopoly against the interests of the laboring classes and farmers. As we have stated before, every voter in the State should read the document, compare it with the one we are now living under, and then you can vote understandingly. While the new one is not all that could be desired, it is a marked improvement over the present one. Be sure and read the new Constitution, then, no doubt, you will be in favor of its adoption."

Woodford Sun: "Some Louisville patriots have issued a circular calling on opponents of the new Constitution to meet at Lexington next Wednesday, June 10, to devise means to defeat it. The circular sent to us is signed by a 'committee' composed of Colonel J. Stoddard Johnson and Hon. Henry Watterson. We do not know just who the committee represents, but we can make some guesses on the subject. What a grand era for Kentucky when the corporations, popularly supposed to have no souls, are interesting themselves in the welfare of the 'dear people,' and are using every energy to keep them from having a bad Constitution thrust upon them. Happy day."

Hart County News: "If the new Constitution will prove such a detriment to the farming interest, as claimed by some, and will fasten the hold the monopolies now in existence have upon the people as urged by the Courier-Journal, why is it that all monopolies are against it?"

Owensboro Inquirer: "The opposition to the adoption of the new Constitution does not come from the masses of the people. It does not come from fair-minded men who have given the instrument careful and candid consideration. It comes mainly from the Courier-Journal and the small-fry politicians and newspapers in the State that have no opinion of their own, but who blindly follow wherever the Courier-Journal lead. In this contest the Courier-Journal is the ally and organ of the gigantic corporations that are seeking to encompass its defeat, and its course in persistently and willfully misrepresenting and garbling the provisions of the instrument in order to weaken it with the people is unworthy the position it holds in the councils of the people, of the State and of the Democratic party of the Nation."

Blue Grass Clipper: "We believe a large majority of the people favor the new Constitution, and they should adopt measures to guard against the powerful influences and unholy methods of the opposition."

Larue County Herald: "The new Constitution gives us a system of balloting at elections that will put a serious check on bribery. This causes ward bummers and pothouse politicians to be against it. The people in general, however, favor that clause. It is a good one."

Notice, Bicyclists.

All parties wishing to attend the Kentucky State meeting of the League of American Wheelmen to be held at Louisville, June 26th and 27th, will please leave their names with Kackley & McDougle at once. The wheelmen of this country are getting to be "some pumpkins," and a royal good time is guaranteed all by the Louisville boys.

Whooping Cough.

"We have had an epidemic of whooping cough here, says A. B. Pope, Stewart, Tenn., and Chamberlain's Cough Remedy has been the only medicine that has done any good." There is no danger from whooping cough, when the remedy is freely given. It completely controls the disease. Fifty cent bottles for sale by Power & Reynolds.

Here and There.

Miss Ruth Evans, of Ewing, is visiting Miss Emma Soward.

Mr. G. S. Judd arrived home yesterday from a trip to Massachusetts.

Miss Anna C. Frazee is visiting Miss Hawkins, of Bourbon County.

Mr. Andrew Gorey, of Paris, spent yesterday with friends in this city.

Mrs. Fannie M. Hayes, of Millersburg, is the guest of friends at Washington.

Mrs. S. B. Poyntz is at home after a sojourn of several months at Orlando, Fla.

Master Leonidas Cox, son of State Senator Cox of Indiana, is visiting relatives near Washington.

Miss Edna Hunter, of Millersburg Female College, is at her home in Washington for a few days.

Mrs. Martin Durrett, of Covington, is visiting the family of Mr. W. H. Durrett, near Washington.

Mrs. John T. Wilson and Miss Mamie Scott, of Mayslick, are guests of Mr. and Mrs. Jos. F. Perrie.

Mrs. John D. Tash, of Chicago, is visiting her parents, Mr. and Mrs. James Smith, of West Second street.

Mr. Charles Stevenson, of Aberdeen, is at home from Washington and Jefferson College, Washington, Pa.

Mr. Newton C. Powell, of Cincinnati, spent Sunday here with his parents, Mr. and Mrs. Enoch B. Powell.

Mr. and Mrs. A. Bliss and children, of Cincinnati, came up Saturday afternoon on a visit to her father, Mr. L. Hill.

Miss Mary B. Gaines returned Saturday from Nicholasville, where she attended Jessamine Female Institute the past session.

Mr. Thomas Pogue has returned from Washington, Pa., where he was a student of Washington and Jefferson College the past session.

Mr. T. Throop Browning leaves Wednesday on a trip to Washington, Hagerstown, Baltimore, New York, Boston and other points.

Mr. Thomas M. Green arrived home Saturday evening from Paducah, where he attended the annual meeting of the Kentucky Press Association last week.

Children's Day.

Yesterday was Children's Day at the Christian Church's Sunday School. An interesting programme had been prepared, and everything passed off very pleasantly. The pulpit was very prettily adorned with flowers and potted plants. The idea sought to be impressed upon the children by the programme was the great truth that Jesus is "our Light, our King, our Hope, our Master, our Savior, our Shepherd," and this was carried out by songs, recitations, banners and scriptural quotations.

As is the custom with the school, a collection was taken for foreign missions. It amounted to \$64. The banner class was a class of little girls in charge of Mr. J. T. Kackley. They contributed \$14.35. The contribution yesterday was the largest ever made by the school for foreign missions.

Don't fail to see Mrs. Prather's paintings at Kackley & McDougle's, Monday and Tuesday only. Any one desiring to take lessons should not lose this opportunity. All invited to call and inspect the work. 8d2t

THE Fleming Gazette says a beautiful blue carrier pigeon swooped down on the roof of O. P. Maxey's dwelling at Ringo's Mill a few days ago. It wears on the left leg a large band half inch wide and on it are the initials of "W. K." No. 595, and on the right leg the initials of "W. T. W." No. 380.

REV. B. W. MEANE was at Shelbyville a few days ago and preached the baccalaureate sermon at Stuart College. The Shelby Sentinel says: "The subject was 'Our Imperishable Record,' and was handled in an interesting manner. The sermon contained four principal points, as follows: Memory is indestructible, conscience is deathless, influence is immortal, character is imperishable."

Mr. Mebane also attended the commencement exercises of the college and delivered the diplomas to the young graduates.

THE commencement exercises at Centre College, Danville, this week, will be more interesting than usual. On Wednesday morning at 11 a. m. Justice Lamar, of the U. S. Supreme Court, will deliver an address, which will be followed by memorial addresses in honor of the deceased Presidents of the College, by Justice Harlan, Rev. Dr. Craig, Hon. W. C. P. Breckinridge and Judge Alex. Humphrey. At the alumni banquet Wednesday at 1:30, responses to toasts will be made by the following distinguished gentlemen: Hon. John Young Brown, Judge H. E. Jackson, of Tennessee; Col. E. F. Shepard, of New York; Hon. A. E. Stevenson, of Illinois; Senator Call, of Florida; Judge W. H. Holt, Judge J. G. Sumrall and Hon. Boyd Winchester, of Kentucky, and some others.

RETSON MINING SALT COMPANY'S ROCK LUMP SALT FOR CATTLE.

To Farmers, Stock-raisers and others: It is generally known that the use of common loose salt for cattle, horses, sheep and hogs, is injurious to them, but such, however, is the fact. Their nature requires only so much salt as will be absorbed by the saliva. By the ordinary method of salting, more or less of the loose salt is carried undissolved into the stomach, causing irritation to the membranes and coating. In many well authenticated instances the death of sheep, and attacks of colic and other difficulties in horses and cows have been traced to this cause. It is very desirable, therefore, that some method of salting stock be employed. The most suitable form of salt for this purpose is furnished by nature in the form of Rock or Mineral Salt, and the best possible method of supplying it to stock is to place lumps of it in the mangers and other places where it can be easily reached when required by them. It goes four times as far as common salt, and is cheaper at any reasonable price. Any stock will do 20 per cent. better by using our Rock Salt. They do not have that terrible thirsting for water caused by using common salt, which contains large quantities of lime and magnesia, our salt being the only salt known free from these impurities.

ASHLAND PARK STOCK FARM, LEXINGTON, KY.
Messrs. R. B. Crouch & Co., Chicago, Ill.—Dear Sirs: I cheerfully recommend the use of your Rock Salt, as I find, after a thorough test, it is far better adapted to use for all classes of stock than the ordinary common stock salt. It lasts longer and can only be taken in quantities suited to the wants of the stock, and saves the trouble of salting on fixed days as was the custom when using the common salt. For the stable it is almost an indispensable, as by its use the horses have it constantly before them and can use it whenever it is needed, of which the animals themselves are always the best judges. Respect'y, B. J. TREACY.

Cincinnati Tobacco Market.

(Friday.)
The breaks were small and of an inferior quality, comprising mainly common trash, lugs and non-descripts, for which there was a limited demand, and prices ruled slow. The small number of hogheads good and fine leaf shows the same active demand noted on previous days of the week, and brings fair prices. The same can be said of colony trash and lugs.
Of the 298 hds. sold from \$1 to \$3.50, 57 from \$4 to \$5.50, 50 from \$6 to \$7.50, 25 from \$8 to \$9.50, 41 from \$10 to \$14.75, 16 from \$15 to \$19, and 6 from \$20.75 to \$23.

ONE thing must not be lost sight of. When you buy jewelry from Ballenger, you can rest assured of getting just what you bargain for. His stock is the best and is always complete.

THE friends of Coroner Cockrell will regret to learn that he has been quite poorly for the past few days. He was resting somewhat better yesterday, but is unable to leave his room.

WILLIAM McD. SHAW, of Covington, has been appointed Assistant United States District Attorney for Kentucky, vice Mr. George DuRelle, who handed in his resignation. The salary is \$1,500 per annum.

It is reported, says the Cincinnati Post, that G. W. Stevens, General Superintendent of the C. and O. system, will retire July 1, after which date the duties will devolve upon Harry Frazier, whose title will be General Manager and Chief Engineer.

MR. GEORGE CRAWFORD has opened his new blacksmith shop at corner of Second and Lee streets and invites his friends and former patrons to call when needing work in his line. He has had years of experience at the business and guarantees satisfaction. Blacksmithing of all kinds done.

A GAY DECEIVER.

"Paddy" Parks in Custody at Covington on a Very Serious Charge.

"Paddy" Parks, a Maysville man, is behind the bars at Covington on a very serious charge.

"Paddy" has a wife and child in this city, but he has been palming himself off at Covington as a single man, and a foolish young girl of that city is sorry now that she ever met him.

The Covington correspondent of the Enquirer says: "Among his female acquaintances was a Miss Florence Lowe, a very estimable young lady. He is a painter by trade, and while painting at a house in this city he managed to throw out his acquaintance hooks, and he has been calling on her very regularly until a few days ago, when there was a sudden estrangement, which was caused by the fact that she had found out that he was not what he had represented himself to be.

"He had claimed all along to be a single man, and won her heart and hand, and the day was set for their marriage. The girl, by her industry, had saved \$160, which she had on deposit in the Glory Building Association. He induced her to draw out the money and give it to him to buy household goods, which she did. He obtained the money on Saturday, May 30, and they were to have been married on the following Tuesday.

"To make his bluff good and strong, he took the girl to the Probate Clerk's office in Cincinnati and left her in a room while he went upstairs after the license. He was absent about ten minutes and then returned, saying that the Clerk was too busy to issue the document. They returned to Covington, and he went over the next day and took her with him. It seems that he had got posted on Ohio laws on his last trip, and told the girl if the Clerk asked her to swear that she was from Ohio for her to refuse. She did as he requested, and the result was that no license was issued. They came out of the court house, and as they were walking down the street, he said:

"Well, I could not marry you, as I am already married."

"This came like a thunder-clap and the poor girl commenced to cry and told him he was no gentleman, and demanded the return of her money. He gave her back \$50 and told her he had spent the balance, and left her. The girl applied to Chief of Police Goodson and stated her case, and Saturday night Parks was arrested by Officer Cutler and lodged in jail. An effort will be made to prosecute him for obtaining money under false pretenses. Miss Lowe bears a most excellent reputation, and this serves as another lesson to girls who are out for street acquaintances. She lost \$110 in money and had a narrow escape of being married to a man who cared nothing for her, and who already had a wife."

Caught the Current.

A man named Riley, who is assisting the parties who are placing the electric railway's line in repair, was holding a guy wire at the corner of Second and Market Friday when he stepped on one of the rails and caught the force of the current. It jerked him off his feet, doubled him up, rolled him over on his back, and there's no telling what the result would have been had he not succeeded in breaking his hold in some way. He said it felt like forty men had, all at once, seized him and jerked him about over the ground. He had been a little nervous for several days and he thought the shock would cure him, but he doesn't care to have the dose repeated.

Millard Williams, son of Mr. and Mrs. B. F. Williams, had a somewhat similar experience a few days since. He and some other lads threw a small wire over the trolley wire and then bantered each other to take hold of it. Williams finally stepped up, seized it, and the next instant was thrown about twenty feet by the current. Luckily for him the wire broke, and he was soon all right.

Another Hard Storm.

The heavy rain storm Saturday morning was followed by another one late in the afternoon.

There was but little wind in this vicinity, but in the neighborhood of Washington, Murphysville, Sardis and Lewisburg considerable damage was done to forest and fruit trees and fencing. No buildings were blown down as far as reported. The rainfall was very heavy especially at Murphysville, and the ground was badly washed at many places.

There was considerable hail also in places. At Sardis, the hail stones were as large as partridge eggs.

The wind was particularly destructive on the Caldwell farm between Sardis and Mayslick. A great many fine walnut trees were blown down.

Big Coal Run.

Heavy rains fell in the past few days at headwaters, and a big run of coal will come down this week. Over 18,000,000 bushels are loaded at Pittsburg and every boat there will be sent out with a tow.

SUNDAY CLOSING.

The Barbers and Some of the Clothiers Observe the Law.

The move recently inaugurated to secure a better observance of Sunday is proving successful.

For the first time, perhaps, in the history of Maysville, all the barber shops were closed yesterday. People who failed to get shaved Saturday had to shave themselves or go unshaved.

The Red Corner Clothing Store was also closed. The salesmen reported for duty yesterday morning as usual, but the proprietors informed them they could go, as no business would be transacted on that day. A number of customers applied at the door but were not admitted.

All the bakers of the city except one have expressed their willingness to close their places of business on Sundays.

The Ministers' Union will likely make another appeal this week to those business men who persist in violating the law.

THE attention of farmers and stockmen is called to the advertisement of Messrs. M. C. Russell & Son. This firm has a lot of the Retsof lump salt on hand, and this salt is the best for horses, cattle, sheep and hogs.

THE industrial edition of the News-Democrat of Georgetown, O., issued last week, was one of the best of the kind that has reached this office. It was profusely illustrated, and gotten up in the highest style of the typographical art.

A SPECIAL from Paris Saturday says Richard Johnson, a burly young negro, was arrested by the City Marshal this morning for the outrageous conduct of grabbing at and hugging ladies on the street at night. Several of the most respectable ladies have been grabbed at or hugged by him for several evenings past.

THE Cincinnati Enquirer announces that L. B. Jackson, Chief Engineer of the C. and O., will retire from that company's service on July 1 next. Mr. Jackson was engaged by the C. and O. people to look after new work, and, as it is now about all completed, he will sever his connection with the road. H. Frazier, at present Superintendent of the Cincinnati and Huntington divisions of the C. and O., it is understood, will be made Engineer Maintenance of Way.

MINER'S MAXIMS.

The hen that lays two eggs a day usually does so at the expense of some other branch of its business.

We devote to the Shoe business all our time and attention, and we allow no outside matters to interfere with it. If we don't know something about Shoes, it's getting near time we did.

The dealer who is willing to compromise with his conscience can find plenty of opportunities for doing so. Some Shoes cover a multitude of sins and the dealer is or ought to be familiar with every one of them.

The plain truth of the matter is that the interests of the buyer and seller are identical—the most thorough protection we can give our own interests is to have a scrupulous regard for yours.

What we cannot afford to do is to deal unfairly with a customer. If you don't know anything more about the hidden qualities of Shoes than you do about Sanscrit, you can deal with us just as safely as though Shoes had been a life-long study with you.

BROWNING & CO.,

EAST SECOND STREET.

THE ITATA'S ARMS.

They Were Received Many Miles from Shore.

INTERVIEW WITH HER OFFICER

They Admit Breaking the Port Laws But Emphatically Deny That the Neutrality Law Has Been Violated—The Charleston to Bring the Itata Back to San Diego, California.

IQUIQUE, June 8.—In an interview with the officers of the Chilean steamer, Itata, the correspondent of The United Press was informed that the arms and ammunition were transferred from the American schooner Robert and Minnie to the Itata many miles from the American coast. While the officers admitted breaking the port laws, they emphatically denied that any of the neutrality laws were violated, and assert that the Itata simply put into San Diego for provisions.

The reason for the abrupt departure was that the captain wanted to keep an appointment with the Robert and Minnie, which vessel was awaiting outside. The officers indignantly deny the rumor that the Itata's engine was purposely damaged.

The American warships are employing all available mechanics to put the Itata in order. When the repairs on her are finished she will proceed to San Diego under the escort of the Charleston.

The decision of Admiral McCann to take the Itata without allowing the discharge of her arms and ammunition has caused great excitement here, while the press comments very bitterly upon the matter and considers that the United States, the cradle of Republican ideas, commits a grievous mistake in thus indirectly assisting the dictator.

INSURGENTS WORSTED.

The Revolution at Amapola, Honduras, of Short Duration.

NEW YORK, June 8.—Dispatches received here from Managua, Nicaragua, dated May 20, say:

The revolution at Amapola, Honduras, the other day ended in the insurgents being overcome. It seems that Ezeta, of Salvador, desiring to make bad feeling with Honduras, through his agents induced a number of soldiers of the fort at Amapola to revolt and in the fight Gen. Williams, the commandante, was badly wounded but not killed as first reported in the fight.

The insurrection was soon quelled by those troops who remained loyal and these who were captured of revolutionists were imprisoned to await trial.

Some 200 Jamaica negroes arrived this week at Greytown to go to work on the canal as laborers. Everything is quiet now in Costa Rica.

Business is good here as considerable more coffee is being shipped this year than in former years.

EMBEZZLER'S WORK.

He Manages to Get Away With \$20,000 of Toledo's Money.

TOLEDO, O., June 8.—The grand jury has returned indictments against W. H. Cook, Toledo's embezzling police clerk, charging him with having embezzled \$20,000 of the city funds and \$2,000 of the funds of the Equitable Life Insurance company, of which he was agent.

The indictments are four in number. Since the discovery of Cook's defalcation, a month ago, he has been confined in the police station, being guarded in one of the rooms by a detective detailed for that duty. When the indictments were returned Saturday he was at once taken to the county jail, and placed in a cell for the first time. The amount charged came as a surprise, for no one expected that the defalcation would exceed \$10,000.

Elliott's Paper No More.

COLUMBUS, O., June 8.—There was no issue Sunday morning of William J. Elliott's paper, The Capital. It has been wrecked. Several weeks ago John H. Rees brought suit against Elliott for \$5,000 damages, Rees having been shot accidentally during the Elliott-Osborn tragedy. It developed that William J. Elliott's wife owned The Capital. An attachment was made on the concern. Then a receiver was appointed. Mrs. Elliott ordered the men to quit work and then removed personal belongings. No money to pay the hands forthcoming, the paper has suspended. It is said that the friends of the Elliott brothers have made arrangements to start another paper.

School Building Struck by Lightning.

MANCHESTER, O., June 8.—During a severe thunder storm Saturday afternoon the fine public school building at this place was struck by lightning and badly damaged. The cupola caught fire, but fortunately it was discovered and extinguished before much damage. A house occupied by Robert Bowman was also struck, and a young lady named Erwin was badly stunned. A number of fences, trees, etc., were blown down. This makes the third damaging storm within four days that has struck this place.

Dishonest Clerks.

INDIANAPOLIS, June 8.—A wholesale firm of this city is prosecuting a sensational investigation into alleged stealing by two clerks who have held responsible positions with the firm for years. One of the clerks is accused of embezzling \$3,500 in goods, it being charged that he loaded the goods upon a dray, sold them and made no accounting to the firm. The other is accused of spending more money than he earned, and the firm is trying to find where he got it. Both clerks have been discharged.

Colored Woman Murdered.

YOUNGSTOWN, O., June 8.—Mrs. John Booker, aged 46 years, wife of a colored barber, was found murdered at 5 o'clock Sunday morning in a shed near her home. The murdered woman's head was cut into pieces. Although there has been several arrests there is no positive clew. It is supposed the crime was committed early in the evening. The woman had been assaulted.

TOO LAZY TO WORK.

So He Retired to a Shady Ravine, Where He Came Near Dying from Want.

CRAWFORDSVILLE, Ind., June 8.—Several weeks ago James Crooks, an inmate of our county asylum, was given some work to do, but he refused, saying he was not built to work, and that was not what he was on this earth for. So he left the farm and went to one of the unfrequented ravines on the east side of the Monon track. Here he laid down.

He was very weak, and being naturally lazy, he stayed there all the day on which he left and the succeeding night. The next morning he was unable to move, and in that spot he lay helplessly for five weeks. Last evening a party of hunters found him accidentally, and first thought from the horrible stench arising that he must have been dead for some time. Upon examination, however, he was found to be still alive, although perfectly helpless and unable to move a limb. His condition was revolting in the extreme. He had laid in the dense shade during all the late heavy rains, and his clothing was mildewed and so rotten that it fell to pieces when removed.

His body filthy and covered with vermin. He was not able to fight off the torturing insects. The boys who found him reported the facts at once to Superintendent Goblen, of the poor farm, and Crooks was taken back to the asylum and cared for. This morning he was able to converse in a whisper, and stated that he had fasted for five weeks, in all that time having eaten nothing but a crust of bread. Whether or not he will recover is a question, but if he does, it will be an example of wonderful endurance.

LANDSLIDES.

Travel Delayed on the Missouri Pacific Railroad.

ATCHISON, Kan., June 8.—Recent rains have caused bad landslides along the Missouri Pacific road between Leavenworth and Atchison. In a number of places the track is covered for a distance of 500 feet. The worst slides are near Oak mills, where several passenger trains were caught, being neither able to back up nor go ahead. Passengers were transferred and brought to this city, many being nearly starved.

No trains from the south have arrived here for twenty-four hours. Two hundred men are at work clearing the track, but make little headway. All the section men between here and Concordia and Weeping Water have been summoned. If it rains again soon the track will not be cleared for several days.

More Trouble Looked For.

PITTSBURG, June 8.—Efforts will be made at once for the complete re-organization of the miners in the coke region by the Mine Workers of America. Vice President Penna, of that organization, said yesterday: "Our fight against the coke operators must be maintained as long as we cannot get our rights. The fight cannot be ended. I believe it will not be long before there will be another strike in the regions. The settlement at present is one purely through force. The men have no obligations, moral or legal, to remain at work for three years. A settlement like the present one will never remain in force."

Result of Disastrous Rains.

AUSTIN, Tex., June 8.—The heavy rains which have prevailed here for the past forty-eight hours have caused the Colorado river to take a sudden rise. Within three hours the river rose twelve feet. In the mountain gorge above the city it is twenty-five feet above low water mark. The big excavation for the dam, now in course of construction, was flooded and the coffer dam swept away. Many cotton fields are flooded. The loss will be very large.

Peculiar Disease.

INDIANAPOLIS, June 8.—A peculiar disease has become epidemic in this city, and the physicians are greatly perplexed over its origin. It is of a neuralgic nature, and consists of the swelling of one side of the face, being preceded by a day or two of acute pains in the gums. The enlargement increases till the face presents a terribly distracted appearance. The swelling remains for from two to three weeks. There are now a large number of such cases in the city.

Mont Mabbitt Acquitted.

LEBANON, Ind., June 8.—The trial of Mont Mabbitt, who was charged with having killed his sister Minnie's child by placing a strap tight about its throat, to which was attached a heavy iron weight, and afterwards throwing the babe in Eagle creek, has been occupying the attention of the court here for the past week. Friday night it went to the jury, and Saturday morning a verdict of not guilty was rendered.

Inhaled Illuminating Gas.

NEW YORK, June 8.—Three women employed in the kitchen of the Manhattan Athletic club were taken to Bellevue hospital yesterday in a serious condition, they having been found in their room unconscious from the effects of inhaling illuminating gas. The gas was probably turned on by accident. Their names are: Kate Fleming, aged 22; Ann Tracey, aged 20, and Annie Cassidy, aged 20.

Slew His Brothers.

COULEE CITY, Wash., June 8.—Near Waterville Jacob Von Brennan shot and killed his two brothers, John and Henry, after a quarrel arising from a division of stock. The murderer fled on horseback, but as the horse has returned it is thought he has been killed or committed suicide.

Rain Benefits Coal Shippers.

PITTSBURG, June 8.—The rains of the past few days have been a god send to the river coal operators. It is expected fully 20,000,000 bushels of coal will go to the lower ports to-morrow if an eight foot stage of water is reached.

Lawless Law and Order Man.

CHATTANOOGA, June 8.—Hon. J. F. Loomis, president of the Law and Order league, has been arrested for an infraction of the law. He was pulled for digging up the street in order to connect with the sewer without getting the required permit from the city officers. He intended to extend the sewer to the catch basin, a privilege also entirely forbidden.

Young Mothers!

We Offer You a Remedy which Insures Safety to Life of Mother and Child.

"MOTHER'S FRIEND"

Robs Confinement of its Pain, Horror and Risk.

After using one bottle of "Mother's Friend" I suffered but little pain, and did not experience that weakness afterward usual in such cases.—Mrs. ANNIE GAGE, Lamar, Mo., Jan. 15th, 1891.
